Cranes and Hoists

Cranes, Hoists & Slings

120.11.1

(Vocam) (17 minutes) (DVD) (English)

Crane and hoist operation is a complex task. A single mistake could damage property and cause serious injury. This program is intended for crane and hoist operators, supervisors and any personnel working in the vicinity of cranes or hoists.

First Aid

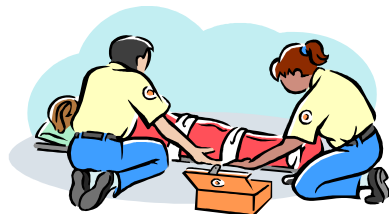

Seizure First Aid

220.03.1

(Epilepsy Foundation) (12 minutes) (DVD)
(English)

Seizures are common events. They are caused by sudden, temporary changes in the electrical functioning of the brain. They can take many forms and may be produced by a number of medical conditions, including epilepsy. This DVD combines footage of real seizures with re-

enactments to demonstrate safe first aid procedures. In addition, people with epilepsy talk

about how they would like friends, family and the general public to react when seizures occur.

Underground Safety

"Make sure you know...What's down below"

110.21.1

(NPL) (10 minutes)
(DVD) (English)

An animated "Gopher Gus" helps promote mark out and underground utility safe practices. This DVD covers topics including best practices, mark out colors, and the dangers associated with trenching and horizontal boring. What to do when a utility line is damaged while excavating is also discussed.

Workplace Violence

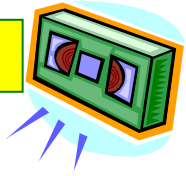

Workplace Violence: First Line of Defense

560.01.1

(Coastal) (30 minutes) (DVD) (English) (Spanish)

As the second leading cause of workplace death, violence represents a challenge to employers, who must be prepared to respond and manage these incidents. This program uses an interview with a convicted perpetrator as well as a compelling dramatization to communicate the impact of the problem.
