

H. R. LABOUNTY SAFETY AWARD PROGRAM NOMINATION FORM

ACWA - JPIA

SEP 24 2012

Agency: Moulton Niguel Water District

Employee Nominated:

Name: Ronin Goodall

Job Classification: Water Distribution Supervisor

Reason for Nomination: Acquired a Salt Delivery System for the onsite generation systems. The salt is brought into the reservoir sites by truck and blown into the awaiting containers inside the building. The employees used to have to pick up 40 pound bags of salt twice to get them into the same container (once into the back of their work truck and then again into the container from the truck). This has reduced the chance of injuries to the employees especially a back injury due the height of the containers. Also as a side note, the cost is the same for the product, but the District has saved tremendously on labor.

Nominated by: Todd Novacek

Signature: 

Date: 9/14/12

General Manager: 

Date: 9/20/12
