

H. R. LABOUNTY SAFETY AWARD PROGRAM NOMINATION FORM

Agency: Carmichael Water District

Employee Nominated:

Name: David Flores

Job Classification: Meter Reader

Reason for Nomination: David Flores identified the need to create a meter equipment rack that holds the equipment during non-use at the District's office. During down time of the equipment the probes would be placed on the desk or hung over the bookshelf causing unsafe conditions (tripping hazards) as well as costly repair of broken equipment. David fabricated the equipment rack from scrap redwood, wheels from a scrap office chair and a tool hanger. It was designed to fit under the work counter in the copy room, roll out for easy access and plug into the outlet to recharge the equipment when not in use. David is resourceful when it comes to making the job easier, safer and more efficient.

Nominated by: Lynette S. Moreno
