

H. R. LABOUNTY SAFETY AWARD PROGRAM NOMINATION FORM

Agency: Sweetwater Authority

Employee Nominated:

Name: Ernestina Diaz, Victor Gaus, and Adam Dingley

Job Classification: Reservoir Operations Specialist, Watershed Caretaker Crew Supervisor, and Lead Watershed Caretaker

Reason for Nomination: During a past construction project steps were installed to allow employee access to the Perdue Treatment Plant outside of the construction zone. After the project was completed employees continued to use these steps for access. Ernestina, Victor and Adam noticed that during low light hours the steps were difficult to see presenting a potential tripping hazard. After discussing the best solution, a low cost and simple solution to install solar powered dusk to dawn lights was selected. By providing adequate lighting which requires little to no maintenance, safety of this area has been greatly improved.

Nominated by: Sweetwater Authority
