

H. R. LABOUNTY SAFETY AWARD PROGRAM NOMINATION FORM

Agency: Western Canal Water District

Employee Nominated:

Name: Chris Harrill

Job Classification: Dichtender/Maintence

Reason for Nomination: Chris is always thinking of ways to improve work performance and safety. Recently he fabricated a meter repair rack. This device holds meters in place and can rotate 360 degrees. This allows easy access to all parts of the meter without having to lift the meter. Many of these main line pump meters can weigh over 75 pounds. The meter repair rack also has a catch basin underneath that catches drain gear oil, has wheels attached to the frame making it mobile and can be locked into place when needed.

Nominated by: Craig Myers

Signature: _____
