

H. R. LABOUNTY SAFETY AWARD PROGRAM NOMINATION FORM

Agency: Wheeler Ridge-Maricopa Water Storage District

Employee Nominated:

Name: Dick Hutchison

Job Classification: Water Distribution Foreman

Reason for Nomination: The District operates around 620 turn-outs each year and during January and February of each year, the Water Tenders do inspections on each turn-out. Part of the inspection is to insure that a valve key is able to connect through the isolation valve tube to the buried valve. As the valve keys are heavy and cumbersome, Dick Hutchison asked the District welders to fabricate a device to check the square nut on top of the valves made of thin wall conduit (EMT). The valve keys weigh around 50 pounds and the valve checker weighs less than five pounds.

Nominated by: Stephen Dunn
