

NOMINATION FORM

H. R. LABOUNTY SAFETY AWARD PROGRAM

AGENCY: Mesa Consolidated Water District

Employee Nominated:

Name: Frank Scheafer

Job Classification: Water Maintenance Crewleader

Reason for Nomination: To avoid confusion and simplify identification where multiple valves are located in close proximity, Frank Sheaffer has created a method of marking recessed valves. Color coding and labeling lengths of pvc pipe that are placed over the valve. This provides a visual double check system to identify recycled water, mark valves that should not be shut off, such as lines coming from a well, and valves that should not be turned on such as a stub out. Not for use in all applications but definitely beneficial in multiple valve locations.

Nominated by: Alan Cook, Water Maintenance Supervisor
